Execution Readiness

After creating hundreds of strategic plans and executing thousands of implementations. One thing the most successful implementations have in common - **Execution readiness!**

Execution readiness is the sweet spot between strategic planning and strategic execution. It helps you ensure that your organization is positioned in the best possible way to get the best possible results in the shortest period of time. This approach works for strategic plan execution, new programs, projects, and initiatives. It even works for honing your operational execution and merger & acquisition work. Simple right?

5% → 1 Day/Month → 12 Days/Year

All it takes - What if instead of spending 0% of your time, you spent just 5% of your time to assess your execution readiness, and got 25 to 42% greater results from initiatives and implement them on time and with less stress?

25-42% Better Result *
Faster Implementations
Less Stress

EXECUTION READINESS HEALTH CHECK

8 Week Program

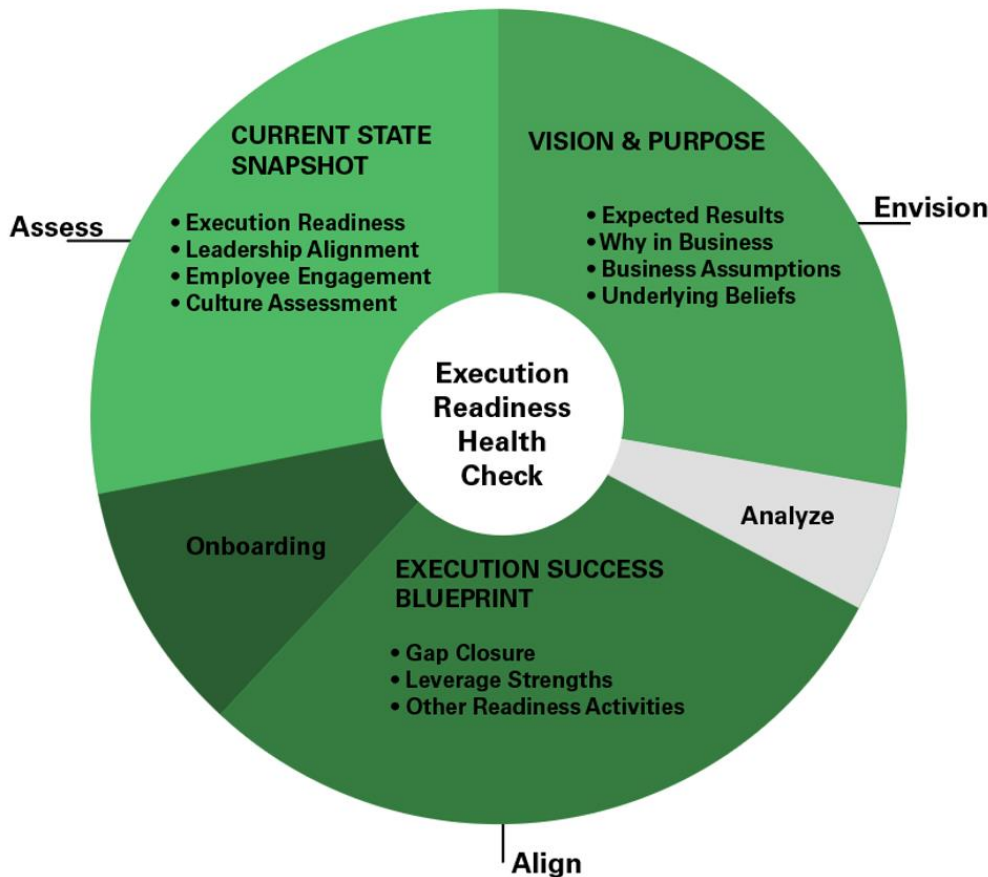

Working with: The Leader and their Leadership Teams (up to 12 people).

Onboarding: Champion/Admin Discussion & Team Kickoff

Assess: Current State Snapshot checking your execution readiness, leadership alignment, employee engagement, and cultural readiness using self-assessments to define *where you are*.

Envision: Your vision, purpose objectives, expected results, and business assumptions through session prework & facilitated sessions defining *where you're going and why*.

Align: **Analysis** by mES & Report Readout to Leadership Team on *how to get there* with the **execution success blueprint** that highlights gaps to close, strength to leverage, and habits to create or stop.
